

IMPORTANT: Enrollment in FMPH Courses for Fall 2022

Dear Current and Prospective Public Health Majors:

PLEASE, PLEASE, PLEASE READ THIS ENTIRE EMAIL!!!

We realize that this is a long email, but it is extremely important. It contains instructions that are critical to registering for Fall 2022 FMPH classes.

Due to high demand for our courses, **we have reserved a number of seats in our Fall 2022 classes** to help ensure that students graduate on time. This means that **if you want to take one or more FMPH courses in Fall 2022, you will need to follow the instructions listed below.**

It is VERY IMPORTANT that you check your VAC and UCSD email regularly. The department will be sending out time-sensitive updates. If you miss these updates, you may end up not getting seats in classes you need.

INSTRUCTIONS

The fall schedule of classes posted on Tuesday, May 17th, 2022 and second registration has now begun. Please send any questions you have through the [VAC](#).

NOTE REGARDING ALL FMPH COURSES:

If you are interested in enrolling in a FMPH course that is full during your first registration, you should waitlist at the very beginning of second registration. The waitlist will be prioritized and an internal waitlist will be kept by the department. All remaining seats will be filled using the internal waitlist, so please make sure to waitlist at the very beginning of second registration and wait for our VAC message before switching your schedule. We will message all waitlisted students in the VAC to let them know if we have seats for them or if we have placed them on our internal waitlist for the course within 2 weeks after **second** registration has started. **All students who were authorized to enroll in a FMPH course MUST enroll in first registration for priority enrollment.**

IN-PERSON VERSUS REMOTE FMPH INSTRUCTION:

All FMPH courses will be in-person for Fall 2022, we will NOT be offering any remote or asynchronous instruction options. Courses that offer an in-person option will indicate a campus classroom. All remote courses will list **RCLAS** indicating the course will be taught remotely.

The department is excited to offer a small FMPH 191 special topics class this fall with Dr. Harrell. FMPH 191 "Racism as a Public Health Crisis" The broad topic of this course is the declaration by multiple municipalities around the country formally declaring racism as a public health crisis. The course will address questions such as: What is structural racism? What is public health? Why are there disparities in health outcomes between races? What are the moral questions raised by the effects of racism on health? What are the moral obligations of medical health and public health professionals? The goal of this course is two-fold: to introduce the main issues and to practice argumentative writing about the moral issues raised by these declarations.
