Welcome

Cheryl A. M. Anderson, PhD, MPH, MS
Dean, Herbert Wertheim
School of Public Health
and Human Longevity Science

On behalf of the Herbert Wertheim School of Public Health and Human Longevity Science community, congratulations to all of our 2022 graduates on completing your studies. The community is proud of your accomplishments and looks forward to hearing about your future success. Please stay in touch and let us know of your ongoing pursuits. We look forward to seeing you at alumni association events in the future and continuing to celebrate our school community.

Kimberly Brouwer, PhD
Interim Associate Dean
for Education & Student Affairs,
Herbert Wertheim School of Public Health
and Human Longevity Science

Dear Class of 2022,

You've been through thick and thin, earning your degree during these challenging times. From lessons both in and outside of the classroom, you understand the importance of rigorous data, creative prevention strategies, environmental and behavioral interventions, health equity, and much more. You've exhibited purpose, determination, patience, resilience, and a sense of community that will serve you well wherever your path may lead.

We are delighted to have shared in this part of your journey and are proud of your accomplishments. We wish you continued success and look forward to hearing of your positive impact on the world in the years to come. Congratulations!
Speakers

David A. Brenner, MD
David A. Brenner, MD, a distinguished physician-scientist in the field of gastroenterological research, joined UC San Diego as Vice Chancellor for Health Sciences in 2007. Dr. Brenner is recognized for his pioneering vision to foster synergies between education, research, and clinical care.

Dr. Brenner has guided the Health Sciences through a period of tremendous growth. He now leads a multibillion-dollar enterprise comprising the Herbert Wertheim School of Public Health and Human Longevity Science, School of Medicine, Skaggs School of Pharmacy and Pharmaceutical Sciences, and UC San Diego Health, all of which are among the best in the nation.

Dr. Brenner earned his medical degree from the Yale University School of Medicine. After completing his residency at Yale-New Haven Medical Center, he served as a research associate at the National Institute of Diabetes and Digestive and Kidney Diseases. He previously served in leadership positions at Columbia University and the University of North Carolina at Chapel Hill.

Barbara Brody, MPH
Barbara Brody is Clinical Professor, voluntary, in the Herbert Wertheim School of Public Health and Human Longevity Science, where she also serves as a member of the Center of Excellence for Health Promotion and Equity. She began her career of teaching, research and community service at UC San Diego in 1967 in the School of Medicine’s Department of Community Medicine.

Among her honors, she received the Chancellor’s Associates Award for Excellence in Teaching in recognition of her teaching of over 6,000 undergraduates and medical students, encouraging them to pursue careers in fields related to public health. Her community service was recognized with the Chancellor’s Associate’s Award for Excellence in Community Service for leadership of research-based community and mobile vision care programs reaching over 100,000 low-income preschool children; and for research programs preventing depression and improving quality of life in older adults with disabling vision loss.

Barbara Brody was an undergraduate at the University of California, Berkeley. She earned her MPH at Yale, focusing on cross-cultural health promotion and disease prevention.

2022 Commencement Celebration
Herbert Wertheim School of Public Health and Human Longevity Science
The Division of Biostatistics and Bioinformatics in the Herbert Wertheim School of Public Health and Human Longevity Science at UC San Diego offers a Master of Science and a Doctor of Philosophy in Biostatistics.

This year’s graduates from the Master of Science in Biostatistics are:
Fangyi Cao
Ziyi Ding
Zhengxu Liao
Ryo Mayes
Benjamin K. Pham
Scott A. Rappoport
Ravi Sharma
Tianna M. Truby
Yingjia Wei
Jasen Zhang
Alexander Zhu

This year’s graduates from the Doctor of Philosophy in Biostatistics are:
Ruifeng Chen
*Doubly Robust Causal Inference From Complex Surveys Using Matching, with Applications to the Causal Effect of e-Cigarette Use on Smoking Cessation*

Kristen Hansen
*Toward Precise Statistical Inference in Spatial Environmental Epidemiology: New Techniques for Causal and Fine Scale Analysis*

Wenyi Lin
*Applications of Longitudinal and Functional Data Analysis*

Jinyuan Liu
*Semiparametric Regression Models for Between- and Within-subject Attributes: Applications to High-Dimensional Data, Asymptotic Efficiency and Beyond*

Tyler A. Vu
*The Analyses of Viral Genetic Networks in the Presence of Missing Data*

Yiran Zhang
*Causal Inference for Competing Risks and Semi-Competing Risks Data*
Graduates
Master of Advanced Studies (MAS)
in The Leadership of Healthcare Organizations

The MAS in The Leadership of Healthcare Organizations focuses on building leadership and management skills for healthcare professionals with an emphasis on clinical process improvement. The program is designed to equip graduates with the advanced knowledge and skills that are essential for managing the escalating challenges in today’s competitive healthcare environment.

This year’s graduates from the Master of Advanced Studies in The Leadership of Healthcare Organizations are:

Eugene Angus
Quiet at Night – Improved Patient Satisfaction Because of Increased Sleep Duration

Clair Clements
Precision medicine meets value-based care

Noel De Lira

Bushra Elcott
The effects of ethical leadership on patient healthcare outcomes

Nimisha Goel
The impact of limited childcare for healthcare providers

Register as an alumni of the Herbert Wertheim School of Public Health and Human Longevity Science.

As a graduate of the Herbert Wertheim School of Public Health and Human Longevity Science, we are thrilled to welcome you into our alumni community! We invite you to follow the school of public health on LinkedIn to receive news and updates.

In addition, we appreciate your attention to exit surveys sent by several of the programs. These short surveys help our education programs learn from the experiences of our students, to adapt and grow according to student needs, and to accurately report on graduate outcomes at the program level.

Lastly, we encourage you to register as a member of our alumni community to receive invitations to upcoming events, participate in panels and career presentations, and more.
